

Product Janitor

Hands-on product & growth lead. Fixes underperforming, leaderless or stuck digital products.

Fractional, interim, or the right permanent role.

20+ years across saas, growth, ecommerce, b2b & innovation. Startups to global enterprise.

I can provide both hands-on and management support.

I can help you

- ▶ Take an idea from 0 to shipped product.
- ▶ Take a product to market: positioning, pricing, growth.
- ▶ Turnaround underperforming products, teams or initiatives.
- ▶ Address complex / critical initiatives that no-one else can get moving.
- ▶ Help scaling teams ship: product ops & better ways of working.
- ▶ Cover the gap: sudden exits, parental leave. IC to leadership level.

My story

Late 80s: first computer. Typing out BASIC from a magazine, syntax errors.

Late 90s: dot.com boom. Kids in bedrooms disrupting industries. I had to get involved - started making websites.

2003: Dot.com bust. No jobs. Got a foot in the door answering phones & made a better website in my free time. Pitched it, sales went up, joined the web team.

2004 - 2014: Learning by doing. Following impact across web, marketing, growth and product.

2016: Health-tech. The last industry to be disrupted - regulations, barriers, the lot. That's why I went.

2026: AI changes everything. Same feeling as the 90s.
